## SUMMARY

Software Engineering undergraduate with experience in building full-stack web applications using React, Node.js, and MongoDB. Proven ability to design RESTful APIs, implement secure authentication systems, and translate real-world requirements into production-ready solutions. Also skilled in general computer operations, including MS Office (Word, Excel, PowerPoint), internet and email handling, data entry, and basic troubleshooting. Passionate about clean architecture, performance optimization, maintainable code, and efficient use of computer systems in professional environments.

## EXPERIENCE

### MERN Stack Intern

Rev9 Solutions, Jhelum

January 2026 – Present

- Worked on full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Assisted in developing and maintaining RESTful APIs.
- Built reusable UI components and improved frontend responsiveness.
- Collaborated with senior developers to debug and optimize application features.

## EDUCATION

### University of the Punjab

Bachelor of Science in Computer Science

### Army Public School And College

Pre Engineering

June 2022 – June 2026

**CGPA: 3.51**

June 2018 – June 2022

**Grade : A**

## PROJECTS

### DocChain – Doctor & Patient Appointment System

Sep 2025 – Present

- Architected a role-based appointment platform enabling doctors and patients to manage availability, bookings, and medical interactions
- Designed secure authentication and authorization flows using JWT and protected REST APIs
- Built scalable backend services with Node.js, Express, and MongoDB, handling real-time appointment conflicts and slot validation
- Developed a responsive React frontend with optimized state management and reusable components
- Integrated Cloudinary for image uploads and implemented secure data handling best practices

### QuickShow – Movie Ticket Booking Application

June 2025 – July 2025

- Engineered an end-to-end movie ticket booking system with dynamic seat selection and showtime management
- Implemented transactional booking logic to prevent double-booking and ensure data consistency
- Developed REST APIs for bookings, movies, and shows with efficient database queries
- Created an intuitive React UI focused on user experience and real-world booking workflows

## ACHIEVEMENTS & CERTIFICATIONS

Meta Front-End Developer Certificate – [Coursera](#)

Meta React Basics – [Coursera](#)

AI For Everyone – DeepLearning.AI – [Coursera](#)

Solved 100+ algorithmic problems on [LeetCode](#)

## TECHNICAL SKILLS

**Tools:** POWERPOINT, EXCEL, DATA ENTRY, EMAIL HANDLING, PERFORMANCE OPTIMIZATION

**Languages:** JavaScript, Python, C++, SQL

**Frameworks & Libraries:** React, Node.js, Express, MongoDB

**Concepts:** REST APIs, Authentication, System Design, OOP, DBMS
